Welcome to Sunway Education Group Residence!

Dr. Elizabeth Lee
Senior Executive Director
Sunway Education Group

Welcome to your home-away-from home!

Staying in a hostel or on-campus accommodation can be one of the most exciting parts of college or university life. It is the beginning of a more independent lifestyle, where you learn to live on your own but with guidance and care from a professional team of residence managers.

Staying on your own or in a shared space, helps you to learn to be responsible and mindful. You would have to manage your own time and facilities when it comes to keeping your room or living space clean, comfortable and conducive for you to rest and study.

Hostel life is sure to teach you important lessons such as doing your own laundry, adjusting and getting to know your roommate(s) or neighbours, respecting the privacy of others and supporting and helping one another through life's challenges. All these while juggling your studies and extra-curricular activities.

The hostel is a great place to make new friends as well. Many have formed long lasting friendships. American filmmaker and actor Richard Linklater once said, "The people you lived with in college, those first roommates are often people who would remain as friends for the rest of your life."

At Sunway, we are committed to providing our students a safe and conducive environment where they can live, study and play. While you are here, you will discover that this is more than just your college or university. It's also your home and your community! We hope you will take advantage of the facilities available and enjoy being part of a diverse and vibrant community.

Thank you and God bless.

Welcome to
Sunway Education Group Residence! (continued)

Prof. Graeme Wilkinson
Vice-Chancellor
Sunway University, Malaysia

I am delighted to welcome you personally to the Residence and to wish you both an enjoyable stay as well as every success with your studies.

It is our aim to help every student reach his or her full potential, and to fully take part in all aspects of university and college life, both academic and social. Our residences are designed to give you a home within a secure environment on or nearby the campus and to enable you to get the most out of your time with us.

I encourage you to take full advantage of all the facilities offered to you, and be open to making friends and engaging socially with your fellow residents. The residence community and your own experience is largely what you and your colleagues make of it.

Have a great time!

Welcome to Sunway Education Group Residence! (continued)

Mr. Teo Ee Sing
Executive Director
Sunway College, Malaysia

It is my privilege to welcome you to Sunway Education Group Residence.

Sunway Education Group (SEG) Residence is the accommodation of choice for students who wish to live away from home. University life offers students their first real opportunity to develop a sense of responsibility and maturity.

In Sunway Education Group (SEG), we have on-campus accommodations such as Sunway Monash Residence, Sun-U Residence and Sun-U Apartment. Off-campus accommodations are available at Indah Villa and Lagoon View. Students, their parents or guardians, will have the freedom to choose either one of these accommodations.

The Sunway Monash Residence is a condominium-style student accommodation just a 3-minute walk from Monash University Malaysia. Both Sun-U Residence and Sun-U Apartment are also located within walking distance from Sunway University and Sunway College.

On-campus accommodations are affordable, safe and set in a convenient location with easy access to food and amenities.

We emphasize the importance of security and safety of our students. All our accommodations are fully equipped and maintained with a high level of security cameras and swipe card access. There is no need to worry about security as we are a 24-hour guarded community patrolled by Sunway's own auxiliary police.

Once again, thank you for choosing Sunway Education Group Residence.

Counselling Services

Professional counselling is a free and confidential service provided by the University's registered and licensed counsellors.

Getting Support

Some concerns can be too hard to solve alone. Be honest with yourself about the support you may need from friends, family or seeking professional help. You may see a counsellor and make an appointment to talk about your concerns. The first step to reaching out is always the hardest, but it will get easier over time. Getting support might help you to keep on track with school or work, as well as your personal or family relationships. The sooner you reach out the sooner things can begin to improve for you.

What is Mental Health?

Mental health is a person's condition in relation to his or her psychological, emotional and behavioural wellbeing. It affects how we think, feel and act. Good mental health is about being able to work and study to your full potential, to cope with day-to-day life stresses, be involved in your community, and live your life in a free and satisfying way. A person who has good mental health is also emotionally and socially well-adjusted, and possesses the capacity to cope with change and challenges.

Why does your Mental Health matter to us?

Mental health problems could affect some people's thinking, mood, behaviour and social interactions. They could lead to mental breakdowns, and some people may feel that they are not able to cope with their daily lives. Mental health problems can also affect some people's lives in different ways:

- Some people may feel depressed and unable to face the world. Some people may also feel scared and worried.
- Some people may feel a sudden surge of energy and may seem to be hyperactive.
- Some people may not be able to eat or sleep well due to a barrage of pessimistic thoughts going through their mind.

Residential Life (continued)

Minding your Mental Health**I. Deep breathing**

Practise the 4-3-4 count: you inhale for 4 counts, hold for 3 counts, and exhale for 4 counts. Do this a few times before resuming normal breathing.

**II. Meditation**

This is a form of mental and physical exercise by which reciting a mantra such as 'OM' would help you focus better. Yoga is a good example.

**III. Exercise**

Physical activities such as running, swimming or cycling can help release stress and "happy" hormones such as dopamine.

**IV. Progressive muscle relaxation**

Clench your hand into a fist, tensing the muscles in your hand but relaxing the rest of your arm. Gradually open your fist, and slowly let go of any tension felt. Be aware of your body sensation.

**V. Journaling**

Simply writing down your thoughts and feelings would help you understand yourself more clearly.

**VI. Listening to music**

Taking a break and enjoying your favourite melodies would help you de-stress and relax from your hectic schedule.

Personal Safety Tips

If you see any suspicious persons or activities within the Residence, report immediately to the Management Office or the Security Control Room.

To prevent theft, we advise all residents to keep their belongings with them at all times. Do not leave personal items including laptops and bags unattended in common areas. Always lock the doors and windows when leaving the room.

Stay alert, confident, and aware of your surroundings. Walk purposefully and make eye contact with people around you. Avoid displaying large amounts of cash in public areas.

Be vigilant when walking after dark. Take common-sense precautions such as avoiding being distracted by mobile phones or earphones when walking on the street, informing friends of your whereabouts, and avoiding dimly-lit areas. Whenever possible, walk in a group.

If you are being followed, abruptly change directions and seek safety in crowded areas. Making loud noises will also attract attention to you and the person following you.

Be aware of what you post on the Internet. Avoid revealing information such as your unit number and room number over social media.
